

## **PET REGISTRATION – Protecting against Lost Pets**

The spaciousness and wild areas around Cordillera Ranch increase the risk of pets getting lost from your home. Your best friend in combating this issue will be your neighbors who may find or see a pet on the loose. In order to facilitate and speed the return of your pet, all pet owners are encouraged to register their pets with the community.

### **Register Your Pet: (free service - free tags)**

If you have not registered your pet/pets in the system then please visit [www.ranchpets.com](http://www.ranchpets.com) to register them. Even without a tag they can be in the search engine by breed if they are registered.

Please take a digital picture of your pet – we need to see its head and body and have the picture well lit and have the pet filling up most of the picture. Email the image to [Jay@Jay-Pennington.com](mailto:Jay@Jay-Pennington.com). With the attached picture please include your name and street address and the pet's name. Once in the system Jay Pennington will email you that you can pick up your tag at the sales office.

### **Lost Pets:**

If you have lost your pet or if you have found someone else's pet you can also find reports on the [www.ranchpets.com](http://www.ranchpets.com) website.

If you lose a pet and it is registered in our system and you want it submitted to this page then email what you want to be printed (description, pet name, where lost, when lost, contact information, Cordillera tag number, etc) with an attached picture if you have one - email to [Jay@Jay-Pennington.com](mailto:Jay@Jay-Pennington.com)

### **Have you found a pet that has a Cordillera Tag?**

If so, please call the sales office 336-3570 and tell them the Cordillera tag number. They can quickly look up which pet it is and who the owner is. If the sales office is closed please email [jay@jay-pennington.com](mailto:jay@jay-pennington.com) and include your phone number and the pet Tag # and you will get a call back with the pet owner's contact information.

### **Have you found a pet that does not have a Cordillera Tag?**

There is a listing of all registered pets with description on the [www.ranchpets.com](http://www.ranchpets.com) website in the event they have just lost their Cordillera Tag. If you find a close match then call the sales office 830-336-3570 and tell them which pet description is the best fit. They will then identify the owner of the pet for you. If the pet cannot be identified then please contact **Cindy Jones** 210 269-0466. In some cases she can locate someone who will temporarily house the pet.

If you do find the owner of a pet that has not been registered please encourage the owner to register their pet in the system. Also please thank **Jay Pennington** for leading this community service.
